

# Virtual Intensivist Program

TOGETHER, WE HEAL

SCP Health's virtual intensivist program provides remote intensivist support for new and existing critical care partners. Our virtual intensivists admit, consult, downgrade, round on patients, and deliver exceptional, high-acuity bedside care.

## Experienced Clinicians

Board-certified intensivists, housed in a remote, HIPAA-compliant space, perform physical examinations, with assistance from a nurse, and communicate directly with patients and hospital staff via a user-friendly, state of the art mobile telemedicine cart.

## Operational Support

Our dedicated team aligns with your program goals and provides telemedicine onboarding, training, and 24/7 ongoing technical support.

## Customized Services

Flexible coverage models match your needs, offering virtual intensivist services for nocturnists, surges, extended time off, specialty admission, supervision, medical consults, and extended coverage gaps.

## Team Consistency

A team of virtual intensivists is assigned to each program, allowing in-person clinicians and staff to build relationships and rapport with their virtual counterparts.
