

TeleHospitalist Program

SCP Health's telehospitalist program supplies remote hospitalist support for new and existing hospital medicine departments, offering:

Better continuity of care

Improved patient, nursing, and physician satisfaction

Increased quality of care

Enhanced productivity and revenue

Housed in a remote, HIPAA compliant space, our teleHospitalists are board certified with 2+ years of recent hospitalist experience.

Telehospitalists utilize a user-friendly, state-of-the-art, mobile telemedicine cart to communicate directly with patients, families, and hospital staff:

OUR DEDICATED TEAM PROVIDES OPERATIONAL SUPPORT INCLUDING:

Take floor and ED calls

Admit, discharge, and round on patients

Telemedicine training

Facility onboarding

24/7 technical support

Perform physical examinations

Deliver exceptional bedside care

IN THE LAST 6 MONTHS

6,026 Admissions

1,344 Rounds

We align with your goals and offer flexible virtual hospital coverage models to match your needs, encompassing:
