

The SCP Resident Pathway

Support at every stage: during residency, through your transition, and across your career

Moving through residency to full-time practice brings a lot of unknowns. The SCP Resident Pathway answers with support at every stage, so you always know what comes next.

During residency

- A \$5,000 monthly stipend during residency for eligible candidates, paired with a guaranteed two-year role
- Development sessions on clinical excellence, financial stability, career growth, and wellness, so you're ready before you graduate

Transitioning to practice

- A dedicated Clinician Experience Specialist who manages your journey from residency to your first shift
- One point of contact for onboarding, credentialing, and the administrative details, so nothing falls on you
- Proactive coordination of privileges, scheduling, and clinical leadership introductions, so you arrive connected, prepared and part of the team

Growing as a physician with SCP Health

- Formal leadership pathways with access to comprehensive support, including an accelerated leadership program, Clinical Leadership Onboarding, Medical Leadership Intensive, and Regional Medical Leadership calls
- Full access to SCP University, with 300+ CME courses free to active physicians
- Wellness webinars and resources for your physical, mental, and emotional health
- Full malpractice coverage, including tail coverage
- The SCP Relief Fund, for emergency assistance during hardship

A community and an organization behind you

- Support from a stable, physician-led organization focused on empowering physicians and improving patient outcomes
- National conferences, journal clubs, and educational presentations
- A network of physicians who started exactly where you are now
- Ongoing advocacy on the issues that matter to physicians

From your final years of training to your first day as an attending, SCP Health is with you.
